**Hazardous Materials**

*Note: Hazardous waste, including universal waste, may NOT be disposed as ordinary trash.*
Promotional Programs

This section of the annual report presents the methods in which your agency informed both employees and customers served that a recycling program was being implemented. Below are identified the programs you reported were continued or implemented during 2001.

1) Web Page
2) Newspaper Articles/Ads
3) Brochures, Newsletters, Publications
4) Recycled Goods Procurement Training
5) Technical Assistance
6) College Curriculum
7) Waste Audits
8) Waste Evaluations/Survey
9) Other Promotional Programs

Procurement Activities Implemented in 2001

This section of the annual report presents your compliance with the State Agency Buy Recycled Campaign (SABRC). The activities identified below were reported as implemented or continued during 2009. (Note: Completing this section does not meet the SABRC reporting requirements (PCC Section 12162(b)).

1) Department-Wide Automated Procurement Tracking System
2) Annual Submittal of SABRC Report
3) Staff Recycled-Content Procurement Training
4) Joint Purchase Pools
5) Other Procurement Activities

Question/Answer

1) Is the mission statement of the State agency/large State facility the same as reported in the Integrated Waste Management Plan?
   Yes

2) How has the waste stream, i.e. those materials disposed in landfills, changed since the Integrated Waste Management Plan was submitted?
   We had four major construction projects during 2001 creating a major increase of demolition waste. Organic contamination caused a portion of this to be unsuitable for reuse.

3) What waste diversion programs are currently in place and what waste diversion programs were implemented in 2001 to meet the waste diversion goals?
We have implemented a new copier program replacing old copiers with those that can duplex. We request that all multipage documents be two-sided. We reuse courier envelopes. We have cut paper distributions in half by using our electronic Postmaster and Bulletin Board, sending information on line rather than through the mail.

The campus shares its discarded equipment with local schools and nonprofit agencies. We buy back books for reuses and sell older library books.

When possible, we buy and sell used items on line.

We resurface reusing asphalt dug up from projects.

4) How were the amounts of materials disposed and diverted, that were entered into the Annual Report, determined (e.g. waste assessments, per capita generation and extrapolation, actual disposal weights, or actual recycling weights)?

We used actual tonnage whenever possible.

Waste and scrap hauler receipts were used for recycled materials.

Actual waste and MRF amounts came from Taormina Industries

Green reductions and composting were determined using the given formula.

Source reductions included the buy back of books and the use of electronic messaging rather than the paper distribution of information.

5) What types of activities are included in each of the reported programs? For example does your agency Business Source Reduction include email, double-sided photocopying, reusing envelopes, etc.?

We do use two sided copy but as it is not mandated, we did not count it. The campus has always had a reuse courier envelope program, but there is no means to count or track the savings.

As noted above, electronic announcements reduced paper usage and book buy backs reduced the need to buy more books.

We have shredded paper recycled, donated usable items to local schools and other non profit agencies.

Out of date and broken Computers are sent to non profit agency that repairs them and gives them to schools.

6) Has the State agency/large State facility adopted or changed it’s waste reduction policy?

We are now having all campus waste (non construction) taken to a material recovery center (MRF). This has increased the amount of recovered materials. We are revising construction specifications to have demolition waste recycled whenever possible.

7) What resources (staff and/or funds) did the State agency/large State facility commit toward implementing it’s Integrated Waste Management Plan in 2001 to help meet the waste diversion goals?

We continue to maintain staffing of our recycling coordinator as previously reported. No new funds have been committed to date.
