2009 SARC Annual Report

California State University Fullerton

Alternative Names(s):CSUF
Agency Type(s):California State Universities
Report Type:Full

800 North State College Blvd.
Fullerton, CA 92834

Total Employees: 4,364

Annual Report Status: Submitted
Submitted on August 30, 2010

Contacts

Willem van der Pol - Director, Physical Plant
wvanderpol@fullerton.edu
Phone: (657) 278-3133

Steven Dugas - Recycling Coordinator
sdugas@fullerton.edu
Phone: (657) 278-3929
Fax: (657) 278-2100

Facilities

1) CSU, Fullerton (4,364 employees)

Facility Address
800 North State College
Fullerton, CA 92834

Contact Address
800 North State College Blvd.
Fullerton, CA 92834

State Agency Reporting Center (SARC)
Promotional Programs

This section of the annual report presents the methods in which your agency informed both employees and customers served that a recycling program was being implemented. Below are identified the programs you reported were continued or implemented during 2009.

1) Web Page
2) Newspaper Articles/Ads
3) Brochures, Newsletters, Publications
4) New Employee Package
5) Outreach (technical assistance, presentations, awards, fairs, field trips)
6) Recycled Goods Procurement Training
7) Technical Assistance
8) College Curriculum
9) Other Promotional Programs

Procurement Activities Implemented in 2009

This section of the annual report presents your compliance with the State Agency Buy Recycled Campaign (SABRC). The activities identified below were reported as implemented or continued during 2009. (Note: Completing this section does not meet the SABRC reporting requirements (PCC Section 12162(b)).

1) Annual Submittal of SABRC Report
2) Staff Recycled-Content Procurement Training
3) Joint Purchase Pools

Question/Answer

1) IN THE TEXT BOX BELOW, PLEASE PROVIDE ANSWERS TO A AND B.
(A) What are the major types of waste materials that your agency/facility currently disposes (not currently diverting), e.g., waste of significant weight and/or volume? If there are major waste materials that are being disposed, what is your agency/facility doing to find ways to divert these materials?
(B) Please explain any difficulties or obstacles your agency/facility encountered in trying to implement recycling or other programs to reduce the amount of waste disposed. Summarize any efforts your agency/facility made to resolve difficulties or overcome obstacles and if they were successful or not.

A) None notable
B) No real obstacles
2) Waste generation includes both materials disposed in the trash as well as materials recycled or otherwise diverted from landfill. There are many reasons why the type or amount of waste generated by your agency/facility may have changed.

SELECT YES OR NO FROM THE DROP DOWN LIST BELOW. IF YOU SELECT YES, YOU MUST PROVIDE AN EXPLANATION IN THE TEXT BOX BELOW.

Do the types or amounts of wastes generated in the last calendar year significantly differ from those that were generated by your agency/facility in the prior report year? If yes, please explain.

The reason why, the type, or amount of waste generated by your agency/facility either may have increased or decreased. For example, construction activities at your agency or facility may increase construction-related wastes; budget cuts may result in cuts to the services your agency provides and, therefore, the related wastes are no longer generated; or a shift in how you do business may create a new type of waste.

If you had changes in the types or amounts of waste generated, then that may have affected the waste diversion programs you implemented. You will be asked in Question #3 about how your waste diversion programs may have changed.

No

3) SELECT YES OR NO FROM THE DROP DOWN LIST BELOW. IF YOU SELECT YES, YOU MUST PROVIDE AN EXPLANATION IN THE TEXT BOX BELOW.

Did you make any significant changes (during the report year) to the waste diversion programs implemented by your agency/facility (such as programs to reduce waste, reuse, recycle, compost, etc.)? For example, did you start new programs, discontinue prior programs, or make significant modifications to existing programs? If yes, in the text box below, please explain why you made the change(s).

No

4) Having an accurate and consistent measurement of trash disposal is important. The annual amount of trash disposed is one factor in the calculation to determine the annual per capita disposal for your agency/facility. CalRecycle considers this calculation, in addition to the waste reduction, recycling, and other waste diversion programs your agency/facility implemented, in determining compliance with statutory mandates.

IN THE TEXT BOX BELOW, PLEASE PROVIDE ANSWERS TO A AND B.

(A) Explain how you determined the annual tons disposed by your agency for the report year (e.g. did you use actual disposal weights provided by a trash hauler, conduct a waste generation study, estimate using weight-to-volume conversions, etc.)

(B) Indicate if this is the same method used to determine tons disposed that was used for the prior report year. If not, please also explain the reason for the change.

A) Used actual disposal weights provided by trash hauler.
B) This is the same method utilized the prior report year.

5) Having an accurate and consistent method to count employees is also important. The number of employees is one factor in the calculation to determine the annual per capita disposal for your agency/facility. (If your agency submits a modified report, per capita disposal is not calculated, but the number of employees is important in verifying your eligibility to submit a modified report).

IN THE TEXT BOX BELOW, PLEASE PROVIDE ANSWERS TO A AND B.

(A) Please explain how you determined the number of employees working for your agency (e.g. total number of full time employees; full time equivalents; total number of full and part time employees; etc.). This information is usually available from your human resources or payroll department.

(B) Indicate if you used the same method to determine the number of employees that was used for the prior report year. If not, please explain the reason for the change.
A) Human Resources tracks employees on a monthly basis throughout the year and provides those monthly reports.
B) Same methodology as previous year.

6) If your agency/facility also has a non-employee population (such as students, visitors, inmates, residents, patients) that significantly contributes to waste generated, then there is a space provided to report that information in Part I – Facility Information. This information is in addition to your employee information - it does not replace it.

IN THE TEXT BOX BELOW, PLEASE PROVIDE ANSWERS TO A AND B.
(A) If you reported a number for a non-employee population, please explain how you determined that number (e.g. full time equivalent students; average number of patients during the report year; etc.)
(B) Indicate if you used the same method that was used for the prior report year. If not, please explain the reason for the change.

If you are not given the option in Part 1 - Facility Information to report an additional population, but believe doing so would be valuable, or if you provided this in the past, but no longer wish to do so, please contact your CalRecycle representative to discuss the merits of adding or deleting this option from your report.

A) Admissions & Records provides those numbers and publishes them to the campus website.
B) Same methodology used in previous year.

7) For your agency/facility, if the annual per capita disposal for the current report year is more than the per capita disposal from the previous report year, then, to the best of your ability, please explain why there was an increase. (To find these numbers, click on “Current Year” under “Previous Year” under “View Report” in the left menu bar. These links display the report summary.)

No increase. Actually decrease from 6.9 to 6.8

8) Additional information you wish to provide in your annual report.

Construction projects winding down -
Eastside parking structure completed summer 2010
Childcare Center completion spring 2011
Student Housing completion summer 2011

No new major projects on the immediate horizon.
