Promotional Programs

This section of the annual report presents the methods in which your agency informed both employees and customers served that a recycling program was being implemented. Below are identified the programs you reported were continued or implemented during 2010.

1) Web Page
2) Newspaper Articles/Ads
3) Brochures, Newsletters, Publications
4) New Employee Package
5) Outreach (technical assistance, presentations, awards, fairs, field trips)
6) Recycled Goods Procurement Training
7) Technical Assistance
8) College Curriculum
9) Other Promotional Programs

Procurement Activities Implemented in 2010

This section of the annual report presents your compliance with the State Agency Buy Recycled Campaign (SABRC). The activities identified below were reported as implemented or continued during 2009. (Note: Completing this section does not meet the SABRC reporting requirements (PCC Section 12162(b)).

1) Annual Submittal of SABRC Report
2) Staff Recycled-Content Procurement Training
3) Joint Purchase Pools

Question/Answer

1) IN THE TEXT BOX BELOW, PLEASE PROVIDE ANSWERS TO A and B.
We would like to understand what is still being thrown away and help you find ways to increase recycling. Please describe the types of waste that are thrown away.
What difficulties or obstacles have you had with finding ways to recycle these wastes?
A. Residual materials as a result of MRF account for nearly half of all waste disposed of 2010 year.
B. Clear identification of those materials by waste disposal contractor.

2) SELECT YES OR NO FROM THE DROP DOWN LIST BELOW. IF YOU SELECT YES, YOU MUST DESCRIBE IN THE TEXT BOX BELOW.
Were there any changes in your recycling/waste reduction programs during the report year? For example, did you start, discontinue, or make significant changes to your recycling/waste reduction programs?
No
3) IN THE TEXT BOX BELOW, PLEASE ANSWER THE FOLLOWING QUESTION.
If the per capita disposal for the current report year is greater than the per capita disposal from the previous report year, then, to the best of your ability, explain why there was an increase. (To find these numbers, look for "View Report" in the left menu and click either "Current Year" or "Previous Year" to display a report summary.)

Campus construction was winding down during 2010, total staff saw a reduction of 1,021 and total recovered tonnage was reduced by nearly 432 tons.

4) IN THE TEXT BOX BELOW, PLEASE PROVIDE ANSWERS TO A AND B.
In Section III, you entered total tons disposed (thrown away at a landfill) by your agency/facility during the report year. Having an accurate method to consistently calculate this number each year is important because it is used in the calculation to determine the report year per capita disposal for your agency/facility.
Examples of types of methods that may be used include, but are not limited to, conducting a waste generation study, using actual disposal weights provided by a trash hauler, or estimating using weight-to-volume conversions.
Explain the method you, or the person that provided you with this number, used to calculate the total tons disposed. Please provide a detailed explanation of the method so that it could be used in the event someone else from your agency/facility had to produce the same number.
Is this the same method used for last year’s report? If not, explain the reason for the change.
A. Campus uses actual disposal weights provided by trash hauler=Ware Disposal.
B. Method is same as 2009 reporting year.

5) IN THE TEXT BOX BELOW, PLEASE PROVIDE ANSWERS TO A AND B.
In Part I of this report, you entered the number of employees for your agency/facility. This information is usually available from your human resources or payroll department. Having an accurate method to consistently calculate this number each year is important because it is used in the calculation to determine the report year per capita disposal for your agency/facility.
(Note: If your agency submits a modified report, per capita disposal is not calculated, but the number of employees is important in verifying your continued eligibility to submit a modified report).
Explain the method you, or the person that provided you with this number, used to calculate the number of employees (e.g. total number of full time employees, full time equivalents, total number of full and part time employees, etc.). Please provide a detailed explanation of the method so that it could be used in the event someone else from your agency/facility had to produce the same number.
Is this the same method used for last year’s report? If not, explain the reason for the change.
A. Method used is total employee count by Human Resources Department conducted each month of the calendar year. For purposes of this report, January count by H.R. is used.
B. This is the same method used for the 2009 reporting year.
6) IN THE TEXT BOX BELOW, PLEASE PROVIDE ANSWERS TO A AND B. (Skip to the next question if you did not enter a non-employee population in Part I.)

NOTE: If there was not an option in Part I to report an additional population, but you believe doing so would be valuable, or if you provided this in the past, but no longer wish to do so, please contact your CalRecycle representative to discuss the merits of adding or deleting this option for future reports.

If your agency/facility also has a non-employee population (such as students, visitors, inmates, residents, patients, etc.) that significantly contributes to the waste your agency/facility creates, Part I of this report asks you for a number for that population. This information is in addition to your employee information - it does not replace it.

Explain the method you (or the person that provided you with this number) used to calculate that number (e.g. full time equivalent students, average number of patients during the report year, etc.). Please provide a detailed explanation of the method so that it could be used in the event someone else from your agency/facility had to produce the same number.

Is this the same method you used for last year’s report? If not, explain the reason for the change.

A. Method used is number provided by campus Registrar of Students for each Fall semester which it publishes on the campus website.

B. Method is same used for 2009 reporting year.

7) Additional information you wish to provide in your annual report.

Major construction has come to an end.
Employee count likely to drop due to CA state budget.
Campus disposal contract goes to bid before end of 2011 calendar year, changes to contract could improve diversion and create recycling stream.
